**Streamlining IT Procurement: Automating Standard Laptop Orders with IT Procurement**

Ordering standard laptops for new joiners and replacements is still a manual, repetitive process in many organizations. Employees raise requests through emails or tickets, and the IT procurement team has to check specifications, approvals and budgets by hand before placing each order with a vendor. This project focuses on understanding the problem from the point of view of the employees who need devices and the IT procurement team who fulfil those requests.

A well-articulated problem statement helps the team identify where delays, errors and duplicate effort occur in the laptop ordering process. By automating standard laptop orders with predefined configurations, approval workflows and vendor integration, IT procurement can reduce turnaround time, improve accuracy and give employees a faster, more transparent experience.

| | | |
|---|---|---|
| **I am** | Describe customer with 3-4 key characteristics - *who are they?* | Describe the customer and their attributes here |
| **I'm trying to** | *List their outcome or "job" the care about - what are they trying to achieve?* | List the thing they are trying to achieve here |
| **but** | Describe what problems or barriers stand in the way – *what bothers them most?* | Describe the problems or barriers that get in the way here |
| **because** | Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?* | Describe the reason the problems or barriers exist |
| **which makes me feel** | Describe the emotions from the customer's point of view – *how does it impact them emotionally?* | Describe the emotions the result from experiencing the problems or barriers |

**Example:**

| Problem Statement (PS) | I am (Customer) | I'm trying to | But | Because | Which makes me feel |
|---|---|---|---|---|---|

| | | | | | |
|---|---|---|---|---|---|
| PS-1 | | | | | |
| PS-2 | | | | | |
