Project Name	Streamline IT Procurement (Automating Standard Laptop Orders with Flow Designer)
Maximum Marks	4 Marks

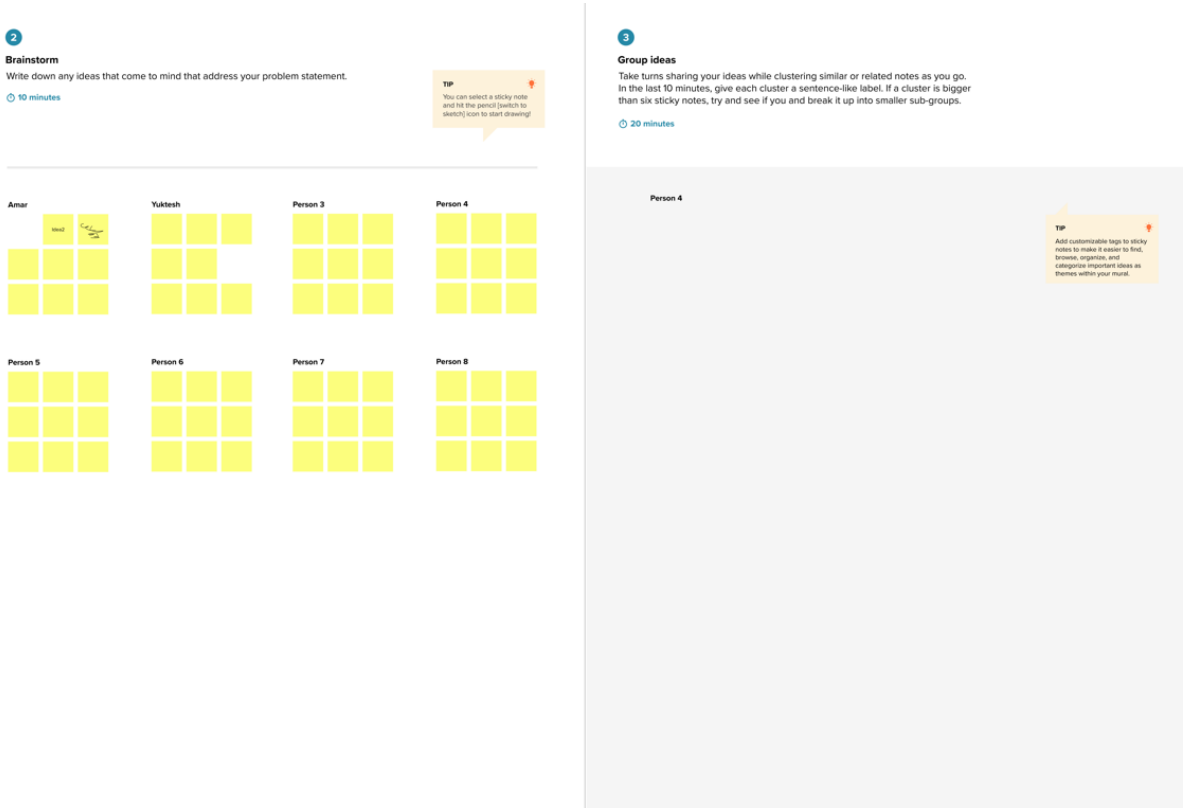

Streamlining IT Procurement: Automating Standard Laptop Orders with IT Procurement

Brainstorming provides a free and open environment for the team to generate ideas for streamlining IT procurement. The team gathers to discuss how standard laptop orders can be automated, listing ideas such as predefined laptop configurations, automated approval workflows, vendor integration and order status notifications. Ideas are then grouped and prioritized based on impact and ease of implementation, so the most valuable solution for automating standard laptop orders can be selected.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Brainstorm, Idea Listing and Grouping

Step-3: Idea Prioritization
