Demonstration of Proposed Features

Date	29 September 2026
Team ID	SWTID-2026-1286
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	3 Marks
College	Balagan Saraswathi Arts and Science College For Women (MSU144)
Team Leader	P Ameena Absana
Team Members	Sakthi Subiksha B, Udhaya Shofana, Sahaya Pradeeba J

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase for automating standard laptop orders with Flow Designer, and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Standard Laptop Catalog Item	Service Catalog item with variables (laptop model, configuration, quantity, business justification) so employees can raise a standard laptop request.	Implemented	Yes	Variables validated
2	Flow Designer Trigger	Flow triggered automatically when a laptop request is submitted through the Service Catalog, starting the end-to-end procurement process.	Implemented	Yes	Trigger tested
3	Manager Approval	Automated approval request sent to the requester's manager; flow proceeds on approval and stops with notification on rejection.	Implemented	Yes	Approve/reject paths tested
4	Procurement Task Assignment	Catalog task auto-created and assigned to the IT Procurement group, with request details and priority populated from the form.	Implemented	Yes	Group assignment verified
5	Automated Notifications	Email notifications to requester, manager and procurement team at submission, approval decision, and order completion.	Implemented	Yes	Emails received
6	Request Status Update & Closure	Flow updates request and requested item state as tasks progress, and closes the request once the laptop is ordered and delivered.	Implemented	Yes	Closure confirmed

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
